## ABOUT CTC

CTC is a privately held Indianapolis-based information technology organization that serves small, mid-market and enterprise private and public sector clients throughout the U.S. and internationally. Our technology experts and business professionals leverage our extensive experience and state of the art toolsets to resolve critical technology challenges and help organizations digitally transform their business models and culture to improve productivity, efficiency, workflow, interoperability, profitability, and to positively impact their mission.

## DIFFERENTIATORS

### Domain and Technical Expertise

- ▶ Over 25 years of technology expertise in the private and public sectors.
- ▶ A company-wide thirst for “Forward Thinking Innovation that Drives Efficiency.”
- ▶ Innovative technology solutions and alignment with industry-leading partners and toolsets.

### Size and Agility

- ▶ Flat organization with highly skilled resources that enables proactivity, sense-of-urgency, and adaptability to client needs.
- ▶ Service oriented, offering exceptional client relationship management, with flexible and customized solutions.

### Diversity and Inclusion

- ▶ Diverse client base to pull IT experience from and apply a variety of past performance experiences (e.g., manufacturing, marketing, and distribution clients).
- ▶ We embrace diversity, work together, and believe collaboration provides a competitive advantage in our thought process and company DNA.
